

CAMBOTICS Series 300

320 Pan/Tilt Head

The new 300 Pan/Tilt head is a compact unit that handles a 40 pound payload with the smoothness, speed, precise control, and on-air move quality for which Cambotics is known. The small size is ideal for legislative, conference room, i-mag, and theatrical applications.

The 300PT uses standard Cambotics Ethernet control so can be mixed and matched with all Cambotics control systems and heads.

320PT Specifications:

Load Capacity: 40lbs
Top Pan/Tilt Speed: 90 degrees/sec
Head Size: 7" x 6.5" x 6"
Power: Brick or Rackmount
Lens Interfacing: Digital or Analog
