

CAMBOTICS Series 500

520PT Pan/Tilt Head

An offset tilt axis greatly reduces the need for awkward counter-weights, while the 520PT's 70 pound load capacity easily accommodates large teleprompters.

The 520 provides the smoothness, speed, precise control, and on-air move quality for which Cambotics is known and can be mixed and matched with all other Cambotics heads and control systems.

520PT specifications:

Load Capacity : 70 lbs
Top Pan/Tilt Speed: 90 degrees/sec
Head Size : 21 lbs, 9" x9"x10"
Power Supply : Brick or Rackmount 48V DC
Lens Interfacing : Digital or Analog
Repeatability: 1mm @5 meters
